ABSTRACT

Information obtained on enrollment at 138 of the 141 institutions that hold membership in the National Association of State Universities and Land-Grant Colleges (NASULGC) is presented in this eigth annual report. Figures are based on head counts of both full-time and part-time enrollment and include extension students enrolled in courses for credit. The total enrollment for all 402 campuses represented by the 141 institutions was projected at 3,392,846. Enrollment was up exactly one percent over Fall 1976, according to reports from 353 campuses able to provide comparable data for both years. Among those 353 campuses, the enrollment of men actually dropped by 11,675 while the enrollment of women jumped by 46,044. The levels of enrollment discussed are undergraduate, first-time freshman, unclassified, first professional, and graduate. (SPG)

ENROLLMENT AT STATE UNIVERSITIES AND LAND-GRANT COLLEGES
FALL 1977

Almost 3.4 million students were enrolled in state and land-grant universities in fall, 1977, making up 30 percent of the estimated 11.5 million students attending all U.S. colleges and universities.

The grand total enrollment for all 402 campuses represented by the 141 institutions which hold membership in the National Association of State Universities and Land-Grant Colleges (NASULGC) was projected at 3,392,565. Actual responses from 391 of these campuses showed a total enrollment of 3,362,846.

Enrollment was up exactly one percent over fall, 1976, according to reports from 353 campuses which were able to provide comparable data for both years. Among those 353 campuses, the enrollment of men actually dropped by 11,675 while the enrollment of women jumped by 46,044.

Information on enrollment at state and land-grant universities was compiled by the Office of Research and Information of NASULGC from data reported to the National Center for Education Statistics as part of the Higher Education General Information Survey (HEGIS). Information was obtained from 138 of the Association's 141 member institutions. Figures are based on head counts of both full-time and part-time enrollment and include extension students enrolled in courses for credit. A supplementary report on extension enrollment for credit was conducted by NASULGC to obtain separate data on this enrollment. For those institutions which indicated that this enrollment had not been included on their HEGIS forms, the total reported on the supplementary extension form was added to the HEGIS total to arrive at the total enrollment for the campus.

(The chart below shows total enrollment and enrollment by level for all campuses participating in the fall, 1977 survey. The parentheses below each heading refer to the number of campuses reporting enrollment for the level. All survey respondents provided enrollment data categorized by level, but all campuses did not have students in every level.)

ENROLLMENT AT STATE UNIVERSITIES AND LAND-GRANT COLLEGES
FALL 1977

*Number of campuses
+Percentage of total enrollment
[1]Includes 2,139 extension students for which by-level information was not available.

SURVEY HIGHLIGHTS

Other highlights of this eighth annual report of enrollment at NASULGC institutions were:

*Enrollment increased from 3,186,311 to 3,218,692 at the 353 campuses providing comparable data for both 1976 and 1977. Enrollment grew at all levels with the exception of unclassified students. The 23.4 percent drop in this category was probably attributable largely to re-classification of many students into undergraduate and graduate categories.

*The percent of enrollment for each level remained much the same as in previous years. Undergraduate enrollment represented approximately three-fourths (76%) of the total enrollment for the 391 campuses providing figures for fall, 1977. There were 2,541,693 students reported in this category. Graduate enrollment of 487,345 comprised an additional 14 percent of the total. There were 242,890 unclassified students, accounting for seven percent of the enrollment and 88,779 first-professional students, making up the remaining three percent of the total enrollment.

*First-time freshmen enrollments climbed almost two percent in fall, 1977 after declining sharply in fall, 1976. There were 470,556 first-time students reported by 301 campuses. These students comprised 21.3 percent of the total undergraduate enrollment on these campuses.

*Men accounted for 53.5 percent of the total enrollment for all survey participants while women accounted for 46.5 percent of the total. There were 1,778,527 men and 1,549,122 women enrolled on the 391 campuses along with an additional 35,197 extension students who were not categorized by sex. In fall, 1976 women made up only 44.5 percent of the total enrollment.

*The percentage of students who were part-time continued to climb. In fall, 1977 there were 908,698 part-time students and 2,418,951 full-time students enrolled on the 391 campuses participating in the survey. Part-time enrollment represented 27.3 percent of the total, up from 25.9 percent in fall, 1976.

*Degree-credit extension enrollment reported by 110 campuses was 138,204, representing 4.1 percent of the total enrollment. Enrollment in extension programs decreased at all levels.

ENROLLMENT RISES AT ALL LEVELS
EXCEPT UNCLASSIFIED

The sharpest rise in enrollment at the 353 state and land-grant universities providing comparable data by level for both years was

among undergraduates. Information from 347 campuses with undergraduate programs showed an increase of 86,462 students at that level for a 3.7 percent growth rate. At the same time graduate enrollment, reported by 236 campuses was up three percent, an increase of 13,787 students from 461,041 to 474,828.

Growth spurts at these two levels were offset by a sharp decline in unclassified enrollment which dropped by 65,734 students for a 23.4 percent decrease. Enrollments at this level dipped from 281,116 to 215,382.

First-professional enrollments remained fairly constant at the 109 campuses with these programs. Enrollment moved up by only 864 students for a one percent change from 86,397 to 87,261.

(The chart at the bottom of the page provides complete comparative data on enrollment at state and land-grant universities for fall, 1976 and fall, 1977.)

WOMEN ARE MAJOR ENROLLMENT STORY OF 1977

Large increases in the number of women students was the major enrollment story at state and land-grant universities in fall, 1977, patterning national enrollment growth trends shown in preliminary statistics published by NCES.

Enrollment by sex reported by the 353 campuses providing comparable data for 1976 showed a 3.2 percent rise in the number of women students with total enrollment up from 1,438,347 to 1,484,391. At the same institutions, the enrollment of men declined .7 percent, dropping from 1,711,197 to 1,699,522.

Increases of better than five percent in the enrollment of women were reported by the 353 institutions at the undergraduate, graduate and first-professional levels, offset by a drop of more than 20 percent in unclassified enrollments.

TWO-YEAR ENROLLMENT COMPARISONS

	TOTAL (353)	UNDERGRADUATE (347)	UNCLASSIFIED (302)	FIRST-PROFESSIONAL (109)	GRADUATE (236)
1977[1]	3,218,692[2]	2,439,500	215,382	87,261	474,828
1976	3,186,311[3]	2,353,038	281,116	86,397	461,041
# change	32,381	86,462	-65,734	864	13,787
% change	1.02%	3.67%	-23.38%	1.00%	2.99%

[1]Figures include information for all member institutions providing comparative data.

[2]Includes 1,721 extension students for which by-level information was not available.

[3]Includes 4,719 extension students for which by-level information was not available.

The enrollment of men rose only 1.8 percent at the undergraduate level and remained almost unchanged at the graduate and first-professional levels. As with women, there was a decrease of more than 20 percent at the unclassified level.

A complete analysis of enrollment by level, sex and full-time/part-time status showed that women increased their share of the enrollment at almost every level compared with 1976 figures. The only exceptions were full-time unclassified women, where the representation of women in enrollment for the level dropped from 8.4 percent to 7.2 percent of the total and in part-time first-professional enrollments, where their percentage share dropped from 1.4 percent to .9 percent.

(The chart to the right shows enrollment for each level, classified by sex and status.)

FULL-TIME/PART-TIME ENROLLMENT BY LEVEL AND SEX
FALL 1977

UNDERGRADUATE
(384)

MEN		WOMEN	
Full-Time	Part-Time	Full-Time	Part-Time
1,100,941	235,627	950,971	245,674
(43.46%)	(9.3%)	(37.54%)	(9.7%)

FIRST-TIME FRESHMEN
(301)

MEN		WOMEN	
Full-Time	Part-Time	Full-Time	Part-Time
218,177	21,226	205,605	25,548
(46.3?%)	(4.51%)	(43.69%)	(5.43%)

UNCLASSIFIED
(281)

25,416	82,724	16,553	106,178
(11.01%)	(35.83%)	(7.17%)	(45.99%)

GRADUATE
(257)

MEN		WOMEN	
Full-Time	Part-Time	Full-Time	Part-Time
148,973	117,960	89,874	117,979
(31.38%)	(24.84%)	(18.93%)	(24.85%)

FIRST-PROFESSIONAL
(112)

MEN		WOMEN	
Full-Time	Part-Time	Full-Time	Part-Time
65,098	1,788	21,125	768
(73.33%)	(2.01%)	(23.80%)	(.87%)

At the unclassified level, the enrollment of part-time women increased sufficiently to counterbalance the decline in the share of the enrollment represented by full-time women for a resultant overall increase in the percentage of the unclassified enrollment accounted for by women. However, at the first-professional level, increases in enrollment of full-time women were not large enough to bring about an overall rise in the percentage share of enrollments at this level accounted for by women.

Women represented 47.2 percent of the undergraduate enrollment, 53.2 percent of the unclassified enrollment, 43.8 percent of the graduate enrollment and 24.7 percent of first-professional enrollment.

Enrollments of men and women were more evenly balanced among first-time freshmen than at any other level. Women accounted for 49.1 percent of all first-time students.

The prevalence of women in part-time enrollments continued with women accounting for a larger share of the part-time enrollment at every level except first-professional. On the other hand, men dominated full-time enrollments at every level.

FULL-TIME/PART-TIME ENROLLMENTS VARY BY LEVEL

Enrollment by full-time/part-time status varied considerably by level. At the undergraduate level, 81 percent of the enrollment was full-time with 2,051,912 students reported as full-time and 481,301 reported as part-time. Among first-professional students, full-time enrollments constituted almost all of the total. There were 86,223 full-time students, or 97.1 percent of the total and 2,556 part-time students, accounting for the remaining 2.9 percent.

Graduate enrollment was divided almost equally between full-time and part-time students. There were 238,847 full-time graduate students, making up 50.3 percent of the total and 235,939 part-time students, accounting for 49.7 percent of the total.

Unclassified enrollments were overwhelmingly part-time with 188,902 part-time students in this category, constituting 81.8 percent of the total and 41,969 full-time students, making up the remaining 18.2 percent.

EXTENSION ENROLLMENT DROPS IN 1977

Degree-credit extension enrollment of 138,204, categorized by level, included 55,360 students enrolled in undergraduate programs, 48,145 listed as unclassified and 27,379 students enrolled in graduate programs. An additional 7,140 extensions students were not classified by level.

Extension enrollment decreased by 3.7 percent at the 89 campuses which were able to provide comparable data for 1976 and 1977. Enrollment reported by these campuses dipped from 135,295 to 130,260.

Extension enrollment dropped at every level among those institutions which were able to provide comparable information. Undergraduate enrollment decreased 3.7 percent from 57,430 to 55,313. Unclassified enrollment was down 5.5 percent from 43,311 to 40,951 and graduate extension enrollment dipped 1.2 percent from 27,607 to 27,274.

NUMBER OF CAMPUSES
WITH DECREASES DECLINES

Approximately a third of the 391 state and land-grant university campuses participating in the fall, 1977 enrollment survey showed decreases in their total enrollment. This was substantially less than the 181 campuses which reported drops in fall, 1976.

Most of the decreases were quite small for large campuses. Fifty-one campuses had decreases of less than 100 students and 55 campuses reported drops in the 101-500 student range. There were 12 campuses with decreases between 501-1,000 students and nine campuses with decreases of more than 1,000 students.

The number of campuses showing decreases in enrollment was less than in 1976 at every level except unclassified. The number of campuses reporting drops was as follows: undergraduate, 121; first-time freshmen, 128; unclassified, 163; first-professional, 36 and graduate, 100.

There was a dramatic difference in the number of campuses reporting increases in the enrollment of women and those with increases in the enrollment of men. There were only 159 campuses which reported increases in total enrollment for men while 275 had increases in total enrollment for women.

There were six campuses which reported increases of more than 1,000 students in the enrollment of women. The campuses and the size of their reported increases were: University of Minnesota, Twin Cities, 1,390; Rutgers University, New Brunswick, 1,374; University of Florida, 1,176; State University of New York, Suffolk County Community College, 1,147; University of Washington, 1,115 and Ohio State University, Columbus, 1,091.

The number of campuses reporting increases at each level in the enrollment of men and the enrollment of women were:

	UNDER-GRADUATE	FIRST-TIME FRESHMEN	UNCLASSI-FIED	FIRST-PROFESSIONAL	GRADUATE
Men	172	103	116	49	100
Women	271	155	143	93	151

STATE, LAND-GRANT UNIVERSITIES
REPRESENT LARGEST CAMPUSES IN NATION

State and land-grant universities include most of the largest campuses in the nation. The growth of multi-campus institutions, often encompassing all public colleges and universities within a state, has resulted in the development of many extremely large systems.

In an attempt to look at enrollment both from the perspective of all campuses of an institution and on a campus-by-campus basis, NASULGC has ranked survey participants in two ways. The tables shown on the following pages in each case list both the ten largest institutions and the ten largest campuses participating in the NASULGC survey.

Rankings of the top ten institutions in total enrollment remained almost the same as in previous years. The University of California moved from third to fourth place in this year's report largely because figures for the university do not include degree-credit extension enrollment as they have in past years. The University of Maryland (9) replaced Pennsylvania State University on the top ten list. All of the ten largest institutions had enrollments of more than 60,000.

TOTAL ENROLLMENT
FALL 1977

LARGEST INSTITUTIONS		LARGEST CAMPUSES	
State University of New York	347,809	University of Minnesota, Twin Cities	64,629
City University of New York	184,058	Ohio State University, Columbus	51,002
University of Wisconsin System[1]	146,328	Michigan State University, East Lansing	47,383
University of California[1]	126,505	University of Texas, Austin	41,660
University of North Carolina	111,197	University of Wisconsin, Madison[1]	39,022
University of Texas System[2]	91,062	University of Maryland, College Park	37,866
University of Minnesota	77,215	University of Washington, Seattle	37,765
Indiana University	72,377	University of Michigan, Ann Arbor	36,740
University of Maryland	61,312	Temple University, Philadelphia	36,339
University of Illinois	60,569	Arizona State University, Tempe	35,954

[1]Figures do not include degree-credit extension enrollment.
[2]Figures do not include enrollments for 3 medical centers.

The listing of the top ten campuses in 1977 included two new additions, Temple University, Philadelphia (9) and Arizona State University, Tempe (10). Enrollment for the ten largest campuses ranged from 64,629 to 35,954.

In undergraduate enrollment, the ten institutions with the largest enrollments included nine of the ten institutions with the largest total enrollments. The University of Puerto Rico (9) completed the listing. Eight of the ten campuses which were listed among the largest in total enrollment were also included in the listing of the top ten in undergraduate enrollment. Pennsylvania State University, University Park (6) and University of Illinois, Urbana/Champaign (10) were also included in the listing. The top ten institutions all had undergraduate enrollments of more than 44,000 and all the top ten campuses enrolled more than 25,000 undergraduates.

UNDERGRADUATE ENROLLMENT
FALL 1977

LARGEST INSTITUTIONS		LARGEST CAMPUSES	
State University of New York	309,107	University of Minnesota, Twin Cities	45,640
City University of New York	152,364	Ohio State University, Columbus	39,090
University of Wisconsin System[1]	112,726	Michigan State University, East Lansing	36,066
University of California[1]	89,596	University of Texas, Austin	32,529
University of North Carolina	84,033	University of Maryland, College Park	28,698
University of Texas System[2]	70,366	Pennsylvania State University, University Park	26,428
University of Minnesota	56,966	University of Wisconsin, Madison[1]	25,503
Indiana University	50,325	University of Washington, Seattle	25,450
University of Puerto Rico	44,604	Arizona State University, Tempe	25,083
University of Illinois	44,057	University of Illinois, Urbana/Champaign	25,054

[1]Figures do not include degree-credit extension enrollment.
[2]Figures do not include enrollments for 3 medical centers.

The institutions with the largest graduate enrollments included nine of the ten institutions on the listing of the top institutions in total enrollment. The only exception was the University of Michigan (9). Enrollment for these institutions ranged from a high of 34,839 at SUNY to a low of 11,386 at the University of Minnesota.

Campuses with the largest graduate enrollments varied considerably in rank order from the top ten campuses in total enrollment, including four which were not on the total enrollment listing. These included University of Pittsburgh, Pittsburgh (6), University of Illinois, Urbana/Champaign (7), University of California, Berkeley (8) and University of California, Los Angeles (9).

GRADUATE ENROLLMENT
FALL 1977

University of Texas System[2]	2,545	University of California, Los Angeles[1]	1,918
University of Missouri	2,540	University of Illinois, Medical Center	1,810

[1]Figures do not include degree-credit extension enrollment.
[2]Figures do not include enrollments for 3 medical centers.

A listing of the ten campuses with the largest first-professional enrollments included several medical center campuses of state and land-grant universities. The University of Michigan, Ann Arbor topped both the listing of the campuses with the largest graduate and first-professional enrollments.

The ten institutions with the largest first-time freshmen enrollments paralleled exactly the top ten institutions in fall, 1976 rankings. This group varied considerably from other top ten listings and ranged from a high of 30,355 to a low of 9,696. The ten campuses varied considerably in rank order from last year's report but included eight of the same institutions. Newcomers to the listing in 1977 were the University of Texas, El Paso (3) and Texas Tech University, Lubbock (10). Enrollments among the top ten did not range widely as in other levels. The largest enrollment was 7,420 and the tenth-ranked institution had an enrollment of 5,084.

FIRST-TIME FRESHMEN ENROLLMENT
FALL 1977

LARGEST INSTITUTIONS		LARGEST CAMPUSES	
City University of New York	30,355	Michigan State University, East Lansing	7,420
University of Wisconsin System[1]	26,049	Ohio State University, Columbus	7,335
University of North Carolina	18,238	University of Texas, El Paso	6,617
University of California[1]	15,854	University of Illinois, Urbana/Champaign	6,079
University of Texas System[2]	14,479	University of Maryland, College Park	5,974
Indiana University	11,020	Purdue University, West Lafayette	5,786
University of Puerto Rico	10,805	Rutgers University, New Brunswick	5,415
Purdue University	10,434	Indiana University, Bloomington	5,249
Pennsylvania State University	10,313	University of Texas, Austin	5,154
University of Illinois	9,696	Texas Tech University, Lubbock	5,084

[1]Figures do not include degree-credit extension enrollment.
[2]Figures do not include enrollments for 3 medical centers.

The institutions with the largest enrollments of women students included nine of the ten institutions with the largest total enrollments although the rank order was somewhat different. The tenth institution on this listing was the University of Puerto Rico. The enrollment for these ten institutions ranged from 171,707 to 28,306.

WOMEN ENROLLMENT
FALL 1977

LARGEST INSTITUTIONS		LARGEST CAMPUSES	
State University of New York	171,707	University of Minnesota, Twin Cities	30,313
City University of New York	98,838	Michigan State University, East Lansing	22,895
University of Wisconsin System[1]	90,817	Ohio State University, Columbus	22,454
University of North Carolina	54,815	University of Texas, Austin	18,278
University of California[1]	54,647	University of Maryland, College Park	17,946
University of Texas System[2]	39,327	University of Wisconsin, Madison[1]	17,370
Indiana University	36,224	Temple University, Philadelphia	17,100
University of Minnesota	36,007	Rutgers University, New Brunswick	16,602
University of Maryland	29,804	University of Washington, Seattle	16,299
University of Puerto Rico	28,306	Wayne State University, Detroit	15,589

[1]Figures do not include degree-credit extension enrollment.
[2]Figures do not include enrollments for 3 medical centers.

Among the ten campuses with the largest enrollments of women, two were not among the top ten in total enrollment. They were Rutgers University, New Brunswick (8) and Wayne State University, Detroit (10). Enrollment for the ten campuses ranged from 30,313 to 15,589.

Degree-credit extension enrollment, which was reported by about half of the NASULGC member institutions, was a major portion of enrollment for only a few universities. Data on extension students reported for all campuses of an institution, showed that the majority of those providing data had extension enrollments of less than 3,000. Data in this area fluctuates widely from year to year because of reporting difficulties for institutions. Only five of the institutions included in the 1977 top ten rankings were in the top group in 1976. The University of California, which has a sizeable degree-credit extension enrollment, is a notable deletion from this year's data. The university did not provide information on extension students for fall, 1977.
